

"Use The WPOptinForm Plugin To Build Your List With Every Post To Your Wordpress Blog!"

"Displays An Autoresponder Opt-In Form At The Beginning Of Your Latest Blog Post, Or Every Post If You Want..."

You no longer have to rely on placing your autoresponder opt-in forms as widgets in your Wordpress side bar. Now you can put them where your visitors will actually see them, at the **beginning** of your blog posts!

You spend a lot of time, energy, and money to get people to visit your blog, but are you building your list with that traffic? It's like throwing away money when you let visitors leave your blog without giving you their email address

Use WPOptinForm On Unlimited Blogs!

Have more than one blog? No problem! Your personal use copy of the WPOptinForm plugin allows you to use it on as many domains as you personally own.

See It In Action:

The WPOptinForm plugin is used on our own blog at NetworkWideAlert.com, where we have it set to display our optin form at the beginning of the 2 latest posts.

How It Works: Simply add your opt-in form code provided by your autoresponder company to the plugin.

(We recommend aweber.com since they have such awesome default templates to use!)

Your opt-in form will now be posted **before** the content in your latest "X" number of blog posts for all of your readers to see. **They can't miss it!**

Additionally, you can set the form to display at the beginning of EVERY blog post if you wish, or on the first visit only.

WPOptinForm Features:

- * Easy Normal WP Plugin Install!
- * Completely Customizable!
- * Works with ANY Autoresponder!
- * Includes Pro Squeeze Page Creator!
- * Display on Latest, or "X" Latest Posts!
- * Optional: Display Only On First Visit!
- * Optional: Email Alerts When You Post!

Hint: Works Perfectly With Your Auto-Blogs!
