

Very Simple To Install And Use Plugin That Cloaks Any Link Using Your Domain Name!

"Helps Prevent Stealing Of Commissions And Increases Clicks Through Rates As Links Appear To Be Internal To Your Domain"

Dear Online Marketer,

The sad fact is people do not like to click on affiliate style links...

Even worse, is the fact that many people will bypass your affiliate links by going directly to the product website.

Then you have the **commission thieves that rob you** of your hard work...

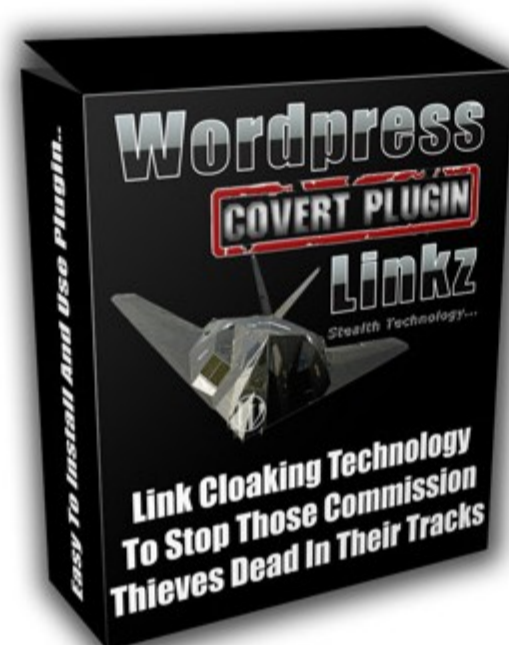

You can now prevent this with a very simple Wordpress plugin!

Introducing "Wordpress Covert Linkz!"
